

11-TTAG-018

Company Name	FM Corporation
NAICS	326199
Address	3535 Hudson Road (P.O. Box 1720)
City	Rogers
State	AR
ZIP	72757
County	Benton
Number of Employees	250
Year Established	1981
Company Web Site	http://fmplastics.com
Contact Person	Becky Brothers
Title	Engineering Manager
Phone	479-621-4614
Email Address	Becky.Brothers@fmcorp.com
Fax	479-621-4638
Secondary Contact Name	Michael Watts
Secondary Contact Title	CEO
Secondary Contact Phone	479-621-4614
Secondary Contact Email	Mike.Watts@fmcorp.com
Resource Provider	ECCI
RP Address	13000 Cantrell Road (NOTE: New address. New telephone and fax numbers)
RP City	Little Rock
RP State	AR
RP ZIP	72223-1637

RP County	Pulaski
RP Project Contact	David Carstens
RP Title	Environmental Engineer
RP Phone	501-975-8100
RP Email	dcarsstens@ecci.com
RP Fax	501-975-6789
Project Area	Environmental Sciences - 9 - Other Environmental Sciences (Please provide short description in box provided below)
Project Area Brief Description	The Stormwater Pollution Prevention Plan (prepared in 1995) will be updated and revised to (1) reflect the current plant operations and equipment, (2) utilize the most efficient and cost-effective “best management practices” for minimizing stormwater pollution, and (3) incorporate new regulatory requirements.
Federal Agency	- Not Applicable -
Project Title	11-TTAG-018 - Update of Stormwater Pollution Prevention Plan
Competitive Challenges	<p>FM Corporation makes injection-molded plastic parts for use in a wide variety of medical and business machines. These custom items are manufactured on a made-to-order basis.</p> <p>FM Corporation must comply with a variety of federal and state environmental regulations. The compliance program for the Rogers plant must be as efficient and cost-effective as possible in order to satisfy the applicable regulatory requirements while at the same time allowing the company to concentrate on its production demands and its customer’s needs.</p>
Specific Problem	The existing Storm Stormwater Pollution Prevention Plan was prepared in 1995. It does not reflect the current plant operations and equipment or the requirements of the new General Permit. New “best management practices” are available for minimizing stormwater pollution in an efficient and cost-effective manner.
Solution	The Stormwater Pollution Prevention Plan (prepared in 1995) will be updated and revised to (1) reflect the current plant operations and equipment, (2) utilize the most efficient and cost-effective best management practices for minimizing stormwater pollution, and (3) incorporate new regulatory requirements.
Implementation Plan	ECCI will update the Stormwater Pollution Prevention Plan for the Rogers plant. We will assist FM Corporation in selecting and implementing the most appropriate and cost-effective best management practices for reducing stormwater pollution. ECCI and FM Corporation will revise the stormwater-related inspection, recordkeeping and training programs for the facility.
Maintenance Plan	FM Corporation will comply with the updated Stormwater Pollution Prevention Plan for the Rogers facility. A quarterly visual inspection program will be established to monitor the effectiveness of the best management practices used to minimize stormwater pollution at the site. The control measures will be modified as needed.

Step 1	Visit Rogers facility and conduct stormwater site inspection (ECCI).
Step 1 Time	12.00
Step 1 Budget	\$1,000
Step 2	Prepare Notice of Intent to renew stormwater permit coverage (ECCI).
Step 2 Time	4.00
Step 2 Budget	\$300
Step 3	Update and revise Stormwater Pollution Prevention Plan (ECCI and FM Corporation).
Step 3 Time	40.00
Step 3 Budget	\$3,700
